Important Notice:

Haidar Technology products are not designed, intended, authorized, or warranted to be suitable for use in life-support applications, devices, or systems, or in other critical applications. Haidar Technology and the buyer agree that Haidar Technology will not be liable for incidental or consequential damages arising from the use of Haidar Technology products. It is the user's responsibility to protect life and property against incidental failure. Haidar Technology reserves the right to make changes and improvements to its products without providing notification.

1. Overview:

Haidar Technology SNT-H640480-RT is a full color TFT display module with integrated resistive touch screen. It is powered by Haidar's SegeNT GUI Controller board and supported by Haidar's uiLAB GUI Designer software.

Please, refer to SegeNT hardware and software manuals for more information on how to use the display module and how to integrate it into your design.

Please, refer to uiLAB help for more information on how to start designing your GUI.

Please note that SegeNT LCD Timing parameters are hard coded and cannot be changed.

2. Features:

- 5.7" VGA (640X480) TFT Color display. 56K True to life colors.
- Hantronix HDA570VT-G or compatible TFT Display.
- Integrated 4-wire resistive touch screen. Pen and Finger touch.
- Powered by SegeNT embedded controller GUI Board
- Efficient LED backlight driver on board.
- Audio amplifier on board.
- Simple Serial CMOS RS232 interface.
- 3.3V or 5V voltage input. Default is 3.3V
- High brightness (350cd/m²)
- Wide viewing angle (-65° to +65°)
- Wide operating temperature (-20°C to +70°C)

3. Carrier Board dimensional drawing:

All dimensions are in inches

4. Module Dimensions:

Width	4.13" / 105mm
Length	6.3" / 160mm
Depth	1.08" / 27.3mm
LCD Area Width	4.13" / 105mm
LCD Area Length	5.67" / 144mm

5. Electrical Characteristics:

SNT-H640480-RT requires 3.3VDC (Default) OR 5VDC (Power Select Jumper). Exceeding the supply voltage over the typical value will cause a permanent damage to the board and to the attached LCD and void your warranty.

Configuration	Typical Current (A) at 3.3V	Max Current (A) at 3.3V
Back light is OFF	0.14A	0.5A
Back light is ON	0.21A	0.5A

6. Electrical Specifications:

Parameter	Symbol	Min.	Typ.	Max.	Units
Input Supply Voltage (PWR SELECT Jumper is set to 3.3V). Default settings	VDD	3.1	3.3	3.7	V
Input Supply Voltage (PWR SELECT Jumper is set to 5V)	VCC	4.5	5	6	V
High Level Input Voltage (VDD = 3.3V)	VIH	0.7VDD	-	VDD	V
Low Level Input Voltage (VDD = 3.3V)	VIL	0	-	0.3VDD	V
Digital sink/source current	Id	-	-	25	MA
Analog input voltage	Va	0	-	3.3V	V
RS232 TX/RX		0.7VDD	-	VDD	V

Warning: RX and TX use a CMOS level of 3.3V. Connecting them to standard (PC) RS232 with +/- 12V or other will damage the controller and void your warranty.

7. Carrier Board Picture:

8. Power Input Select Jumper (J2):

This jumper is used to set the voltage input. The default setting is 3.3V. Zero ohm 603 resistor is used to switch between 3.3V or 5V.

9. LCD Left/Right Scanning Select (J6):

This jumper is used to set the LCD horizontal scanning direction. The default setting is Left (L). Zero ohm 603 resistor is used to switch between Left or Right.

10. LCD Up/Down Scanning Select (J7):

This jumper is used to set the LCD vertical scanning direction. The default setting is Up (L). Zero ohm 603 resistor is used to switch between Left or Right.

11. Pin Description (J8):

Main Interface (16Pos, 0.1", IDC connector)

Pin Name	Pin #	Type	Tolerance	Description
VIN	1	PWR	3.3V/5V	Power Supply Input
VIN	2	PWR	3.3V/5V	Power Supply Input
GND	3	PWR	0V	Power Ground

Hardware Limited Warranty

Haidar Technology, LLC. Warrants its hardware products to be free from manufacturing defects in materials and workmanship under normal use for a period of one (1) year from the date of purchase from Haidar. This warranty extends to products purchased directly from Haidar or an authorized Haidar distributor. Purchasers should inquire of the distributor regarding the nature and extent of the distributor's warranty, if any. Haidar shall not be liable to honor the terms of this warranty if the product has been used in any application other than that for which it was intended, or if it has been subjected to misuse, accidental damage, modification, or improper installation procedures. Furthermore, this warranty does not cover any product that has had the serial number altered, defaced, or removed. This warranty shall be the sole and exclusive remedy to the original purchaser. In no event shall Haidar be liable for incidental or consequential damages of any kind (property or economic damages inclusive) arising from the sale or use of this equipment. Haidar is not liable for any claim made by a third party or made by the purchaser for a third party. Haidar shall, at its option, repair or replace any product found defective, without charge for parts or labor. Repaired or replaced equipment and parts supplied under this warranty shall be covered only by the unexpired portion of the warranty. Except as expressly set forth in this warranty, Haidar makes no other warranties, expressed or implied, nor authorizes any other party to offer any warranty, including any implied warranties of merchantability or fitness for a particular purpose. Any implied warranties that may be imposed by law are limited to the terms of this limited warranty. This warranty statement supercedes all previous warranties, and covers only the Haidar hardware.

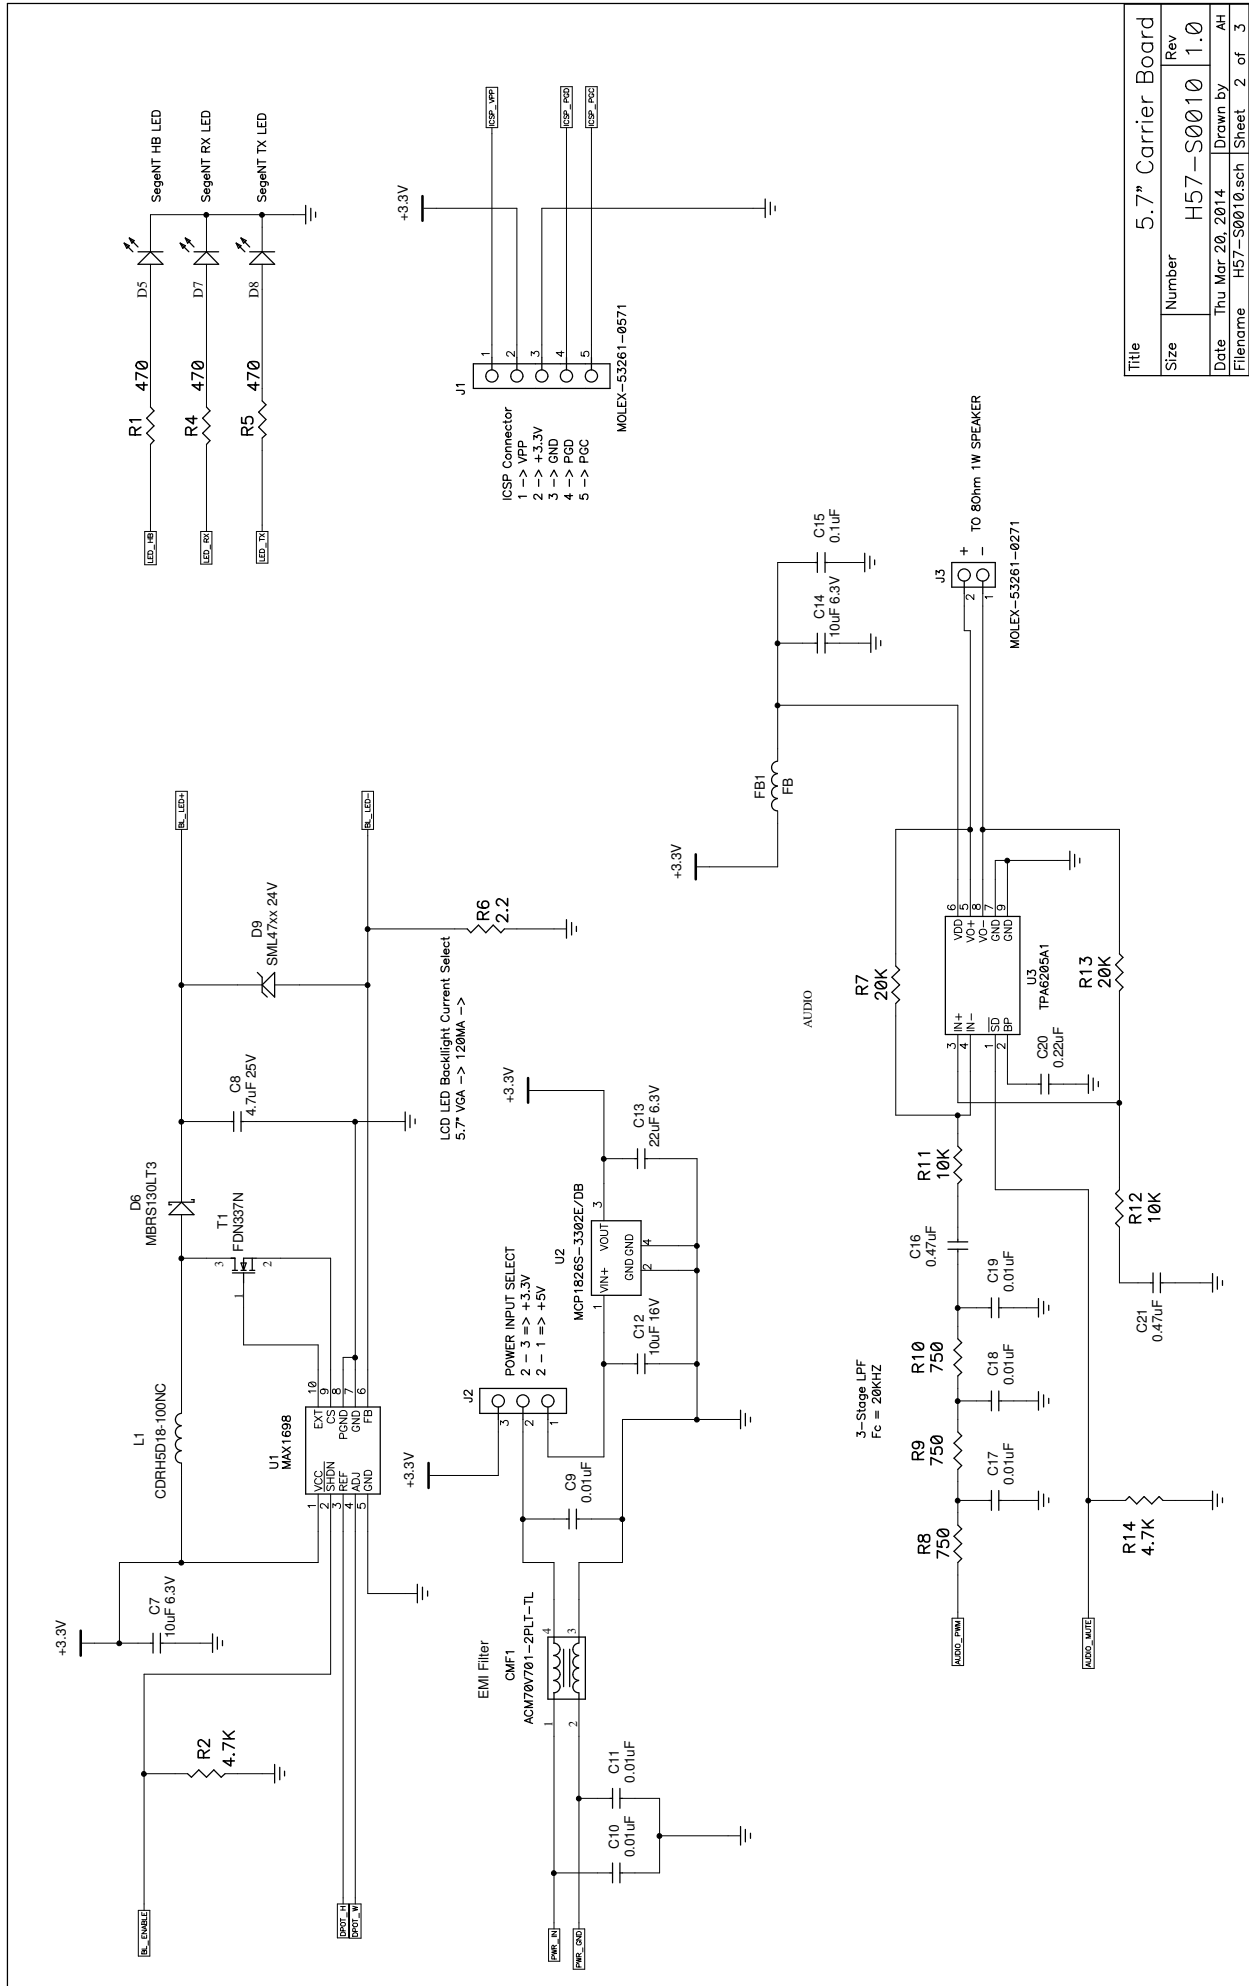

Returns and Repair Policy

No merchandise may be returned for credit, exchange, or service without prior authorization from. To obtain warranty service, contact the factory and request an RMA (Return Merchandise Authorization) number. Enclose a note specifying the nature of the problem, name and phone number of contact person, RMA number, and return address. Authorized returns must be shipped freight prepaid to Haidar Technology LLC with the RMA number clearly marked on the outside of all cartons. Shipments arriving freight collect or without an RMA number shall be subject to refusal. Haidar reserves the right in its sole and absolute discretion to charge a 15% restocking fee, plus shipping costs, on any products returned with an RMA.

Return freight charges following repair of items under warranty shall be paid by Haidar, shipping by standard ground carrier. In the event repairs are found to be non-warranty, return freight costs shall be paid by the purchaser.
